Address: Cra 76 # 50 - 175 Laureles, 050031, Medellín, Colombia (Home)

WORK EXPERIENCE

SOFTWARE DEVELOPER – PERSONAL & SIDE PROJECTS – 30/06/2024 – Current – COLOMBIA

Over the past year, I have been developing my own projects, the most significant ones being:

• A web application to manage the payment of semester tuition fees for students at my university.
• A scoring system for a bowling alley.

These projects were developed using the following technologies: VS Code, Docker, Git/GitHub, Angular, Tailwind CSS, Spring Boot, and PostgreSQL.

I am currently in the process of deploying my projects, and for this purpose, I am pursuing the **AWS Certified Cloud Practitioner** certification.

SOUND AUDIO TECHNICIAN – GOVERNMENT OF HUILA – 01/12/2022 – 24/06/2024 – NEIVA, COLOMBIA

I did all these things for the Pigoanza Theater, managed by a private entity called CorpoSanpedro and by the Culture Secretariat of the Government of Huila.

- Recording:
  - Setting up and operating recording equipment: Microphones, mixers, and recording devices.
- Mixing:
  - Balancing audio tracks: Adjusting volume levels, panning (left-right placement), and frequency content to create a cohesive mix.
- Mastering:
  - Enhancing sound: Applying final EQ, compression, and limiting to maximize audio quality.
- Live Sound Engineering:
  - Setting up sound systems: Installing and configuring PA systems, microphones, monitors, and other audio equipment for live performances.
- Post-Production:
  - Editing audio: Cutting, splicing, and arranging audio clips to create a seamless final product.
- Collaboration:
  - Working with artists and producers: Understanding and achieving the desired sound for a project.

AUDIO VISUAL SPECIALIST – WORLDWIDE MISSIONARY MOVEMENT – 01/06/2022 – 01/01/2024 – NEIVA, COLOMBIA

- In charge of all pre-production (script, storyboard, location scouting, advertising and marketing) and all post-production (video editing, graphic design and music production)
- Install, monitor and maintain sound and video equipment, including speakers, microphones, video monitors and projection screens.
- Select, load, carry, dismantle and install all the equipment necessary for audiovisual production. (Cameras, tripods, lights, consoles, microphones, speakers)
- After having the production ready, I take charge of the publishing process. All the marketing and also the transmission or broadcast of the production.

BROADCASTING ENGINEER – WORLD - WIDE MISSIONARY MOVEMENT – 01/09/2020 – 01/06/2022 – NEIVA, COLOMBIA

- Set up, operate, and maintain the electronic equipment used to acquire, edit, and transmit audio and video for radio or television programs.
- Control and adjust incoming and outgoing broadcast signals to regulate sound volume, signal strength, and signal clarity.
- Ensuring that all broadcasting equipment, such as transmitters, mixing consoles, cameras, microphones, and servers, are operating efficiently.

- Performing regular maintenance checks, troubleshooting issues, and repairing or replacing faulty equipment to prevent broadcast interruptions.
- Providing technical support and training to other staff members and users.
